**ESSER II Plan**
**Coronavirus Response & Relief Supplemental Appropriations Act (CRRSA)**

Released by IN Dept of Education:  April 5, 2021
Encumber date: September 30, 2023

**Perry Township Total Allocation:     $11,820,444.44**

**Planned Use**:
The determined focus of this funding is to enhance and support an effective and engaging environment for the continuation of learning opportunities for all students during times of required virtual and/or hybrid learning. Funding also focuses on reducing virus transmission and maintaining an environment where we must prevent, prepare for and respond to COVID.

Perry Township Schools supports our educators and students with these funds through providing:

- Additional teams/sections added at the elementary and secondary school levels to support class size reduction
- A licensed interventionist at every K-8 school supporting teachers and students in areas of learning loss
- Data analysis support to identify specific learning gaps and monitor progress towards significant student growth
- Additional behavioral support staff to assist students with social and emotional needs
- Additional instructional support materials to support identified learning gaps
- 300+ teachers and staff providing robust K-12 summer school and intersession programs
- Tutor/translators and other English learner staff to support our EL student summer school and intersession program participation
- Nursing staff at all buildings during summer school and intersession programs
- Bus drivers and monitors providing transportation during summer school and intersession programs to support the robust level of participation
- Indiana Online Academy credit recovery support for our high school students
- Transportation devices and materials to support digital identification of students
- Additional building disinfection and cleaning practices
- Additional equipment added to drinking fountains to support sanitary measures
- Personal protective equipment and cleaning supplies to maintain student and staff health and safety
