- 4,779 English Language Learners

Comparing the Years...

In the classroom.....

English learners make up about 30% of our student population. In a classroom of 25 students that would be about 8 students who are learning English as a second or sometimes a third language. We have trained over 80% of our teachers in the Sheltered Instruction Observation Protocol (SIOP) model. We also employ 42 English Language teachers, 7 Facilitators and 38 tutor/translators to support our students throughout the district.
