## **Census 2020**

An accurate count of all children is critical for students because 2020 Census responses drive decisions about the distribution of federal funds for special education grants to states, the National School Lunch Program, the Child Care and Development Block Grant, and Temporary Assistance for Needy Families, as well as other programs and resources that meet the needs of children outside of school, year-round. Participating in the 2020 Census Statistics in Schools program is a way to help shape the future of your community. Please respond to the once-a-decade census. You won't have the opportunity to help shape the future of your schools and community in this way again until 2030.
