

Perry Township Schools In the News

Summer 2014

Congratulations to our 2014 Retirees!

"Empowering Students to Grow Academically, Socially and Behaviorally"

New District Logo

The district has undergone many changes and felt that it was time to begin to develop a brand for the school district. Branding starts with developing a logo that not only symbolizes, but reinforces the reputation of the organization.

A process began in 2012 to design a new logo for the district. The logo needed to be simple, scalable and reproducible, featuring a unique design element. After nearly 2 years of work, on May 12th, our school board voted unanimously to adopt a new logo for the district.

The design includes both P and S and the blue and red colors connect you to our district! Surrounding the shield is laurel, a symbol of excellence, achievement and academics. The logo incorporates a traditional font style called Chaparral.

The new logo will be introduced formally on July 1st on publications, communications and signage throughout the district and community. The new logo marks a season of positive change and evolvment in our organization.

Thank You Volunteers!

The district values, appreciates and celebrates the many volunteers who supported students and teachers in Perry Township Schools with their countless hours of service during the 2013-2014 school year! Thank you, volunteers!!

Summer Happenings:

- Over the summer break, the Perry Township teachers will continue to improve their skills. Many will attend summer staff development workshops with the focus on digital lesson development.

- A new parent screen in Skyward will be introduced in June. Skyward is our student management software system. This will make it easier for parents to see multiple children in their family all at once.

- Repair and renovation projects at Southport High School will continue over the summer. Classrooms and the media center are the focus. Terrazzo flooring that seems to last forever will also be installed at both high schools.

- There will also be a comprehensive summer school program for over 1,000 children in the district. In addition, many camps and practices for students will be held such as athletics, band, theater and swimming!

- The “Summer Servings” free meal program will be available during the summer break at many locations throughout the district.
