Public School Allocation:	\$2,921,600.63
Non-Public Schools Equitable Share:	\$225,860.64

Public School Planned Use:

The determined focus of this funding was to enhance and support an effective and engaging environment for the continuation of learning opportunities for all students during times of required virtual and/or hybrid learning. The learning platform was structured to address the needs of students at various levels of mastery as well as support each of the district's significant student populations.

Perry Township Schools supported our educators and students with these funds through providing:

- 15,000+ devices, protective cases and district management software
- internet hotspots to support at home learning for 800+ families
- every kindergarten student with a proper device for successful at home learning
- student headphones to supplement student engagement during at home learning
- every teacher with an updated device for creating and delivering instruction
- webcams to support delivery of instruction from locations outside of the classroom
- microphones and classroom sound systems that promote simultaneous engaging instruction for in classroom as well as at home students
- staff opportunity for refresher training on district software programs
- interactive software allowing teachers to gather real-time evidence of student learning during lessons
- software that assists in monitoring the testing environment during virtual and hybrid learning
